FIRST APPOINTMENT: As soon as your notes arrive, we will contact you and ask you to make a New Patient nurse appointment, which will be up 15-30 minutes long (Cost: \$36). This will enable the nurse to go through your family history, measure your vital signs, etc. Once this is done, you may make a doctor's appointment as needed. **All new patients must have a nurse appointment before seeing the doctor.**

LENGTH OF APPOINTMENTS: A standard consultation is 15 minutes long. Appointments that run longer than this may incur an extra charge. If you require a longer time, or make an appointment for a Driver's Licence Medical, Insurance Medical, minor surgery or a special medical (eg for Diving) please advise the receptionist what your appointment is for, and she will allow the appropriate time.

CASUAL APPOINTMENTS: We encourage our patients to pre-book appointments as we may not be able to fit you in if you just turn up. People who are not yet registered with us ('Casual' Patients) may be given an appointment, strictly at the Doctor's discretion, but extra charges will apply.

If you require it in less than 48 hours an increased fee will apply. Almost all prescriptions will be emailed to the patients preferred pharmacy. Prescriptions ordered but not collected will still be charged for.

TEST RESULTS: It is our policy to only contact you if the results of any tests/procedures come back showing **abnormal** results. If you hear nothing from us, you can assume everything is normal. You are welcome to ring and speak to the nurse to check your results at any time.
