

Directions to Clinic Appointments on the 6th Level, Support Building, Auckland Hospital

Some clinic appointments are in the Support Building in Auckland Hospital. The outpatient clinic on the 6th level sees hundreds of people every day. It is in the old hospital, the tallest building on the hospital grounds. To get there from the main entrance in the old building, take the lifts up to level 6 and follow the signs to the Outpatient Clinic. To get there from the main entrance to the main (new) building, take the lift up to level 6, and then head in the direction of the Domain, following the signs to the Outpatient clinic. Because different clinics run on different days, using the same rooms, the signs may not specify the specific clinic that you are going to.
